Class Chilopoda

Order Scutigermorpha

Family Scutigeridae

Genus *Scutigera* Lamarck, 1801

***Scutigera coleoptrata* (Linné, 1758)**

= *Scutigera forceps* (Rafinesque, 1820)

Order Lithobiomorpha

Family Lithobiidae

Genus *Lithobius* Leach, 1814

***Lithobius forficatus* (Linné, 1758)**

***Lithobius melanops* Newport, 1845**

= *Lithobius glabratus* C. L. Koch, 1847

***Lithobius macilentus* L. Koch, 1862**

= *Lithobius intrepidus* Meinert, 1868

= *Lithobius aulacopus* Latzel, 1880

***Lithobius tenebrosus* Meinert, 1872**

= *Lithobius nigrifrons* Latzel & Haase, 1880

***Lithobius tricuspis* Meinert, 1872**

***Lithobius agilis* C. L. Koch, 1847**

***Lithobius erythrocephalus* C. L. Koch, 1847**

***Lithobius borealis* Meinert, 1868**

= *Lithobius lapidicola*: Latzel, 1880

= *Lithobius lapidicola*: Lohmander part.

***Lithobius lapidicola* Meinert, 1872**

= *Lithobius borealis*: Stuxberg, 1875

= *Lithobius stella-martinae* Lohmander, 1955

***Lithobius pelidnus* Haase, 1880**

***Lithobius lucifugus* L. Koch, 1862**

***Lithobius calcaratus* C. L. Koch, 1844**

***Lithobius microps* Meinert, 1868**

= *Lithobius duboscqui* Brölemann, 1896

***Lithobius curtipes* C. L. Koch, 1847**

***Lithobius crassipes* L. Koch, 1862**

Family Henicopidae

Genus *Lamyctes* Meinert, 1868

***Lamyctes emarginatus* (Newport, 1844)**

= *Lamyctes fulvicornis* Meinert, 1868

Genus *Lamyctinus* Silvestri, 1909

***Lamyctinus coeculus* (Brölemann, 1889)**

= *Lamyctes coeculus*: Brölemann, 1930

Order Scolopendromorpha

Family Cryptopsidae

Genus *Cryptops* Leach, 1814

***Cryptops hortensis* Leach, 1814**

= *Cryptops agilis* Meinert, 1868, Stuxberg 1871

***Cryptops parisi* Brölemann, 1920**

Order Geophilomorpha

Family Mecistocephalidae *

Genus *Mecistocephalus* Newport, 1842

***Mecistocephalus maxillaris* (Gervais, 1837)**

Family Oryidae

Genus *Orphnaeus* Meinert, 1870

***Orphnaeus brevilabiatus* (Newport, 1845)**

Family Himantariidae

Genus *Stigmatogaster* Latzel, 1880

***Stigmatogaster subterraneus* (Shaw, 1794)**

= *Haplophilus subterraneus* (Shaw, 1794)

Family Dignathodontidae? **

Genus ?**

?**

= *Himantarium caldarium* Meinert, 1886

Family Schendylidae

Genus *Hydroschendyla* Brölemann & Ribaut, 1911

Hydroschendyla submarina (Grube, 1869)

Genus *Schendyla* Bergsøe & Meinert, 1886

Schendyla nemorensis (C.L.Koch, 1837)

Schendyla dentata (Brölemann & Ribaut, 1911)

= *Brachyschendyla dentata* (Brölemann & Ribaut, 1911)

Family Geophilidae

Genus *Geophilus* Leach, 1814

Geophilus carpophagus Leach, 1814

= *Geophilus sodalis* Meinert, 1871

Geophilus electricus (Linné, 1758)

Geophilus flavus (De Geer, 1778)

= *Necrophoeophagus longicornis* (Leach, 1815)

= *Necrophloeophagus flavus* (De Geer, 1778)

= *Geophilus longicornis* (Leach, 1815)

Geophilus insculptus Attems, 1895

?= *Geophilus oligopus* Attems, 1895

Geophilus linearis C.L.Koch, 1835

= *Clinopodes linearis* (C.L.Koch, 1835)

Geophilus proximus C.L.Koch, 1847

Geophilus truncorum Bergsøe & Meinert, 1866

= *Brachygeophilus truncorum* (Bergsøe & Meinert, 1866)

Genus *Tuoba* Chamberlin, 1920

Tuoba poseidonis (Verhoeff, 1901)

= *Clinopodes poseidonis* Verhoeff, 1901

Genus *Pachymerium* C.L.Koch, 1847

Pachymerium ferrugineum (C.L.Koch, 1835)

Family Linotaeniidae

Genus *Strigamia* Gray, 1847

Strigamia acuminata (Leach, 1814)

= *Scolioplanes acuminatus* (Leach, 1814)

Strigamia crassipes (C.L.Koch, 1835)

= *Scolioplanes crassipes* (C.L.Koch, 1835).

Strigamia maritima (Leach, 1817)

= *Scolioplanes maritimus* (Leach, 1817).

* Another species of the family Mecistocephalidae is found introduced to a greenhouse in Sweden. The specimen is not yet examined.

** The specimens described by Meinert as *Himantarium caldarium* is, according to Donatella Foddai, not belonging to the genus *Himantarium*. Investigation is in progress.
